

# MS3000 & MS4000 Pressure Sealing Machines

The newly designed MS3000 and MS4000 is aimed at companies with up to 5,000 employees. This has enabled smaller companies to benefit from utilising pressure seal technology in a cost-effective package.

## Benefits

- Smallest Automatic Sealer
- Lightest Automatic Sealer
- Quietest Automatic Sealer
- Best Value for money
- British designed and made
- Most feature packed budget sealer
- Ease of use
- User friendly LCD display panel
- Upgradeable for low initial cost
- Designed for the office environment

## Features

Feeder Capacity	120
Processing speed	2,750 or 3,750 p/h
Fold Configurations	Z & V
Paper Weight	90 - 140 gsm
Form Sizes	A4 & Letter Sealer
Integral	2 Roller
Footprint	300 x 130 mm
Size L x W x H mm	330 x 360 x 360
Weight	15 KG
Power	230v / 50Hz
Jam Detection	Yes
Conveyor	Optional
Auto Reverse (anti Jam)	Yes
Auto Start Stop	Yes
Batch Counter	Yes
Total Counter	Yes
Purchase or Rental	Yes

# Maintenance

Easy Seal Products prides itself on customer service. Even though our machines are designed to be trouble free, in the event of a problem occurring you need to be up and running at the earliest opportunity due to the time constraints of payroll processing.

In order to offer you and your customers the best possible service we have now opted to supply a sliding scale for the maintenance charge, this is based on annual usage which means the smaller users will save money. We are proud of our after care and value our customers, which is why our maintenance packages are second to none.

All our maintenance packages include Preventative Maintenance (PM). A PM visit consists of a general service, replacement of any faulty or worn parts and a clean.

We have engineers around the country on call to respond as quickly as possible, and a team of support staff to provide effective telephone support. Our standard on-site response time is next working day, but same day response is quite often the norm.

All our engineers wear smart Easy Seal Products uniforms for security.

Annual Usage	Preventative Maintenance	Call Outs	Operator Training	Replacement Machine	Parts and Labour	8 Hour Response
Up to 5,000	1	Included	Included	Included	Included	Included
5000 to 25,000	2	Included	Included	Included	Included	Included
25,000 +	3	Included	Included	Included	Included	Included
PM only	1	Chargeable	Chargeable	Chargeable	Chargeable	Included
Call Out	n/a	n/a	Included	Chargeable	Chargeable	Included

- 8am to 5pm telephone support
- 8hr onsite response time
- 1, 2 or 3 Preventative Maintenance visits per year\*
- All parts and labour included\*\*
- Replacement machine if required\*\*\*
- Engineers based throughout the country
- Engineers fully trained in pressure seal equipment
- Engineers dedicated to Pressure Seal Machines

\* Preventative Maintenance includes replacing worn parts, cleaning machine and training staff.

\*\* Parts and labour chargeable for a call out, parts chargeable for a PM only contract.

\*\*\* If an engineer is unable to resolve the problem onsite, we will either leave a replacement machine or the engineer will ensure all remaining documents are sealed until the problem is resolved.
